

GreenChain (GCH) Tokenomics and Distribution Schedule

Introduction

GreenChain (GCH) is a utility token designed to empower innovation in green technologies such as fusion energy, advanced solar cells, and AI-driven sustainable solutions. As a part of our mission to build a sustainable future, GCH tokenomics ensure fair distribution, long-term project stability, and active community engagement.

This document outlines the tokenomics, allocation, and distribution schedule for GCH tokens.

Total Supply

The total supply of GreenChain (GCH) tokens is fixed at 1,000,000,000 GCH. This ensures predictability and prevents inflation, fostering long-term trust in the ecosystem.

Token Allocation

1. Founders & Team: 40% (400M GCH)

- Purpose: To incentivize the core team and advisors who contribute to the project's long-term success.
- Details:
 - 10% (40M GCH) released immediately at TGE (Token Generation Event).
 - 30% (120M GCH) locked for 6 months, then vested linearly over 12 months.
 - 60% (240M GCH) retained for long-term project scalability and team growth.

2. Marketing & Partnerships: 20% (200M GCH)

- Purpose: To drive adoption through strategic partnerships and marketing campaigns.
- Details:
 - 25% (50M GCH) released at TGE to kickstart marketing efforts.
 - 75% (150M GCH) released in equal monthly installments over 24 months.

3. Staking Rewards: 20% (200M GCH)

- Purpose: To reward the community for actively participating in staking programs.
- Details:
 - 100% (200M GCH) available immediately at TGE for staking rewards.

4. Public Sale: 15% (150M GCH)

- Purpose: To fund the development and growth of the GreenChain ecosystem.
- Details:
 - 50% (75M GCH) released at TGE to provide initial liquidity.
 - 50% (75M GCH) vested linearly over 12 months in equal monthly installments.

5. Reserves: 5% (50M GCH)

- Purpose: To address unforeseen opportunities or challenges, ensuring project sustainability.
- Details:
 - Locked in a multi-signature wallet.
 - Released strategically based on project needs and market conditions.

Distribution Schedule

At Token Generation Event (TGE):

- Tokens Released: 375M GCH (37.5% of total supply)
- Founders & Team: 10% (40M GCH)
- Marketing & Partnerships: 25% (50M GCH)
- Staking Rewards: 100% (200M GCH)
- Public Sale: 50% (75M GCH)

Post-TGE Vesting:

- Marketing & Partnerships: 75% (150M GCH) released over 24 months.
- Public Sale: 50% (75M GCH) released over 12 months.
- Founders & Team: 30% (120M GCH) locked for 6 months, then released over 12 months.

Vesting Details

To ensure long-term commitment and project stability:

- Team Tokens: Locked for 6 months, then linearly vested over 12 months.
- Marketing Tokens: Released in equal monthly installments over 24 months.
- Public Sale Tokens: Released in equal monthly installments over 12 months.

Community Engagement

The staking rewards allocation ensures that community members who actively support the ecosystem through staking programs are incentivized immediately after TGE. This fosters a loyal and engaged community.

Transparency & Trust

GreenChain is committed to maintaining transparency in token allocation and distribution.

Conclusion

The GreenChain (GCH) tokenomics and distribution schedule are designed to ensure a balanced approach between immediate liquidity, long-term project sustainability, and community empowerment. By fostering transparency and stability, GCH aims to become a cornerstone of innovation in green technologies and AI-driven solutions.
